RICHARD HOFFMAN

Dick Hoffman is President and CEO of Atomatic Mechanical Services, Inc. Atomatic was founded in 1945 as a design/build mechanical contracting firm serving the greater Chicagoland area. Dick obtained his finance degree from the University of Miami, then began his career with Motorola, where he worked on the pilot cell phone project. He started his career in HVAC in 1979 with his father's company, Hoffman Trane Service. In 1993 he purchased Atomatic.

Dick has a passion for giving back to the community where he lives and works. He has served as both President of the Harper College Foundation and as a Trustee of the college. In addition to chairing the Little Kids Rock Chicago board, he currently serves on the WINGS board and is a member of the Northwest Community Hospital President's Circle.

Dick, along with his late wife Kathy, were planning to become involved with an organization that brings music into the lives of Chicagoland kids who would normally not have the opportunity, reflecting Kathy's love of music and teaching. Due to Kathy's sudden death, they were not able to select this charity together. However, with the help of Dick's son's wife, he found Little Kids Rock, and witnessed firsthand the positive impact it is making on kids' lives. In memory and in honor of Kathy, Dick and his family are very grateful to be helping Little Kids Rock grow in the Chicagoland area.
